MOUNT HOREB, Wis., Aug. 31, 2023 (GLOBE NEWSWIRE) -- Duluth Holdings Inc. (dba, Duluth Trading Company) ("Duluth Trading" or the "Company") (NASDAQ: DLTH), a lifestyle brand of men's and women's workwear, casual wear, outdoor apparel and accessories, today announced its financial results for the fiscal second quarter ended July 30, 2023.

Summary of the Second Quarter Ended July 30, 2023

- Net sales of \$139.1 million compared to \$141.5 million in the prior year second quarter
- AKHG sub-brand net sales increase 14.0% compared to prior year second quarter
- Inventory composition healthy and well managed, down 4.5% compared to prior year second quarter
- Adjusted EBITDA¹ of \$8.6 million, representing 6.2% of net sales
- New highly automated fulfillment center opened ahead of schedule and on budget

Management Commentary

President and CEO Sam Sato commented, "Customer demand for our Spring & Summer collections was healthy as we sold through our seasonal offerings and drove increases in units and order volume during the quarter. As we navigate what remains a dynamic macro environment in which customers continue to seek value, we are managing the business prudently, controlling what we can control while staying keenly focused on elevating our unique brand and sub-brand positioning. Our updated outlook for fiscal 2023 reflects a continuation of consumers remaining selective in their discretionary spending. Importantly, our inventory position is in good shape and ended the quarter below prior year levels due to strong seasonal sell through and our disciplined efforts to appropriately plan our purchase and receipt flow.

The continued success and momentum in our spring Garden, Landscaping and Planting collection, registering a second quarter sales increase of nearly 40%, combined with expansion of our AKHG sub-brand for women with sales growth of more than 30%, fueled solid women's second quarter sales growth of roughly 3%. We saw strong overall AKHG sub-brand year-over-year sales growth in the quarter of 14%. With the large and growing consumer participation in outdoor recreation, our AKHG apparel collection for men and women represents a significant growth opportunity for Duluth.

We're also seeing a favorable response to our early Fall & Winter receipts and are particularly enthused about our core men's Duluth assortment which is on an improving trend with the recent introduction of new colors and fits in the Long Tail T program and success in the Duluth Double Flex Denim pant program. We expect Men's pants to be a high-volume driver for us this Fall with the support of robust marketing plans over the next few months."

Sato concluded, "We are incredibly excited to share the news that our new highly automated fulfillment center in Adairsville, GA is up and running ahead of schedule and on budget. The center represents a truly transformational advancement in our supply chain capabilities that moves us forward in meeting customers' growing expectations for faster online deliveries and positions us to gain operational efficiencies as early as our peak selling season this year. The investment to automate and expand capacity in our logistics network is a key pillar of our Big Dam Blueprint and I would like to thank all the team members who contributed to realizing this major milestone."

Operating Results for the Second Quarter Ended July 30, 2023

Net sales decreased 1.7% to \$139.1 million, compared to \$141.5 million in the same period a year ago. Direct to-consumer net sales increased by 1.8% to \$86.8 million driven by higher traffic and conversion rates. Retail store net sales decreased by 7.0% to \$52.3 million due to slower store traffic, which was partially offset by continued strong conversion rates.

Gross profit decreased to \$71.5 million, or 51.4% of net sales, compared to \$75.6 million, or 53.4% of net sales, in the corresponding prior year period. The decrease in gross profit margin rate was primarily due to a lower product margin rate amidst the continued promotional retail environment.

Selling, general and administrative expenses increased 1.7% to \$72.9 million, compared to \$71.7 million in the same period a year ago. As a percentage of net sales, selling, general and administrative expenses increased to 52.4%, compared to 50.7% in the corresponding prior year period.

The increase in selling, general and administrative expense was partially due to higher occupancy costs from the new automated Southeast fulfillment center, coupled with investments in new headcount to drive ongoing strategic initiatives.

Balance Sheet and Liquidity

The Company ended the quarter with a cash balance of \$11.1 million, net working capital of \$84.6 million, and no outstanding balance on the Duluth Trading \$200 million revolving line of credit.

End of period inventory of \$157.1 million represented a 4.5% decrease compared to prior period second guarter.

Updated Fiscal 2023 Outlook

The Company's updated fiscal 2023 outlook is as follows:

- Net sales in the range of \$645 million to \$660 million
- Adjusted EBITDA¹ in the range of \$40 million to \$42 million
- EPS in the range of (\$0.15) to (\$0.08) per diluted share
- Capital expenditures, inclusive of software hosting implementation costs, of approximately \$55 million

Non-GAAP Measurements

Management believes that non-GAAP financial measures may be useful in certain instances to provide additional meaningful comparisons between current results and results in prior operating periods. Within this release, including the tables attached hereto, reference is made to adjusted earnings before interest, taxes, depreciation and amortization (EBITDA). See attached Table "Reconciliation of Net (Loss) Income to EBITDA and EBITDA to Adjusted EBITDA," for a reconciliation of net (loss) income to EBITDA and EBITDA to Adjusted EBITDA for the three and six months ended July 30, 2023, versus the three and six months ended July 31, 2022.

Adjusted EBITDA is a metric used by management and frequently used by the financial community, which provides insight into an organization's operating trends and facilitates comparisons between peer companies, since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period.

The Company provides this information to investors to assist in comparisons of past, present and future operating results and to assist in highlighting the results of on-going operations. While the Company's management believes that non-GAAP measurements are useful supplemental information, such adjusted results are not intended to replace the Company's GAAP financial results and should be read in conjunction with those GAAP results.
