¹See Reconciliation of net income to EBITDA and EBITDA to Adjusted EBITDA in the accompanying financial tables.

Operating Results for the Third Quarter Ended November 3, 2019

Net sales increased 12.2%, to \$119.8 million, compared to \$106.7 million in the same period a year ago. Net sales were driven by a 2.9% growth in direct net sales and 24.1% growth in retail net sales, with increases in both our men's and women's businesses. At the end of the third quarter, the company had 58 stores compared to 43 stores in the same period a year ago.

Gross profit increased 7.2%, to \$65.4 million, or 54.6% of net sales, compared to \$61.0 million, or 57.1% of net sales, in the corresponding prior-year period. The 250-basis point decrease in gross margin rate was primarily attributable to a decrease in product margins due to additional global promotions, coupled with recent clearance activity.

Selling, general and administrative expenses increased 0.8% to \$64.0 million, compared to \$63.5 million in the same period a year ago. As a percentage of net sales, selling, general and administrative expenses decreased 600 basis points to 53.5%, compared to 59.5% in the corresponding prior-year period. As a percentage of net sales, general and administrative expenses decreased 50 basis points to 22.1%, compared to 22.6% in the corresponding prior-year period, primarily due to leverage gained from a higher mix of retail sales. As a percentage of net sales, selling expenses decreased 110 basis points to 15.4%, compared to 16.5% in the corresponding prior-year period, largely due to gained efficiencies at both the distribution center and call center. As a percentage of net sales, advertising and marketing costs decreased 440 basis points to 16.0%, compared to 20.4% in the corresponding prior-year period, primarily due to lower catalog circulation and advertising leverage gained from a higher mix of retail sales.

Balance Sheet and Liquidity

The Company ended the quarter with a cash balance of \$2.2 million, net working capital of \$108.7 million, \$20.0 million outstanding on its \$50.0 million term loan, and \$70.5 million outstanding on its \$80.0 million revolving line of credit.

Fiscal 2019 Outlook

The Company reaffirmed its fiscal 2019 outlook as follows:

- Net sales in the range of \$610.0 million to \$620.0 million
- · Adjusted EBITDA¹ in the range of \$51.0 million to \$55.0 million
- · EPS in the range of \$0.60 to \$0.66 per diluted share
- · Capital expenditures of approximately \$38.0 million²
- 15 new store openings, adding approximately 215,000 of additional gross square footage

¹See Reconciliation of forecasted net income to forecasted EBITDA and forecasted EBITDA to forecasted Adjusted EBITDA in the accompanying financial tables.

²Fiscal 2019 capital expenditures primarily include the opening of 15 retail stores, investments in technology and infrastructure improvements.

Non-GAAP Measurements

Management believes that non-GAAP financial measures may be useful in certain instances to provide additional meaningful comparisons between current results and results in prior operating periods. Within this release, including the tables attached hereto, reference is made to adjusted earnings before interest, taxes, depreciation and amortization (EBITDA). See attached Table "Reconciliation of Net Income to EBITDA and EBITDA to Adjusted EBITDA," for a reconciliation of net income to EBITDA and EBITDA to Adjusted EBITDA for the three and nine months ended November 3, 2019, versus the three and nine months ended October 28, 2018. See also attached Table "Reconciliation of Forecasted Net Income to Forecasted EBITDA and Forecasted EBITDA to Forecasted Adjusted EBITDA," for a reconciliation of forecasted net income to forecasted EBITDA and forecasted EBITDA to forecasted adjusted EBITDA for the fiscal year ending February 2, 2020. Adjusted EBITDA is a metric used by management and frequently used by the financial community, which provides insight into an organization's operating trends and facilitates comparisons between peer companies, since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period. The Company provides this information to investors to assist in comparisons of past, present and future operating results and to assist in highlighting the results of on-going operations. While the Company's management believes that non-GAAP measurements are useful supplemental information, such adjusted results are not intended to replace the Company's GAAP financial results and should be read in conjunction with those GAAP results.
